

Reducing adverse events and claims while improving patient safety and outcomes has never been more important or challenging.

That's why Med-IQ empowers you with a 3-tiered approach:

Identify

Pinpoint and prioritize your key risks and present them to stakeholders in an evidence-based way

Educate

Distribute customizable risk education in both in-person and virtual formats that are relevant to a variety of providers and clinical settings and that satisfy CME requirements

Measure

Validate program use, quantify knowledge gained, and assess behavior changes

► Solutions for the Entire Healthcare Team

- Physicians
- Residents
- Practice Managers
- Nurses
- Advanced Practice Professionals
- Risk Professionals

► Solutions for a Variety of Settings

- Hospital-Based
- Ambulatory Care
- Long-Term Care

IDENTIFY

Current Practice Questionnaire

- Assesses evaluates knowledge, attitudes, and self-perceived barriers related to care delivery
- Examines staff/provider needs related to education and/or system-related operations

Risk Assessment

- Evaluates best practices and potential malpractice and patient safety risks proactively
- Looks at staff/provider behaviors that mitigate or increase risks

EDUCATE

Customizable, CME-Accredited Education

- Specialty- and provider-specific in-person and virtual formats
- Unique classrooms available based on practice setting
- Course topics based on review of claims, feedback from leadership and learners, and/or emerging threats
- Bite-sized case studies to reinforce clinical risk issues
- Designated account manager to administer program and provide support

Risk Management Development Program

- Interactive mentoring program for your risk professionals offering best practices, tools, and peer insights
- 3 tracks offered:
 - Comprehensive
 - Infection Prevention
 - Ambulatory

MEASURE

Post-Intervention Practice Questionnaire

- Assesses knowledge, attitudes, self-perceived barriers, and practice changes
- Looks at staff/provider needs related to education and/or system-related operations

Quarterly, Semiannual and Annual Reports

- Summarizes learner participation and general response to the educational experience
- Examines program data to measure efficacy and identify opportunities for improvement
